CARTER IS NOT KING

A Student of Stockholm Falls Into Very Grave Error.

Being president, by his own admission, of a great society for international studies, M. Robert Ahlin of Stockholm, Sweden, would seem to have been badly directed in his studies, very badly directed indeed. Else he would not have written to the King of Hawaii soliciting the appointment of a Hawaiian Consul at the city wherein he lives. Robert, in fact, stands more in need of a director for his studies or for a farther widening of them to take in Hawaii, rather than of an appointment to any kind of consulate. Witness the letter that he writes, all in his own hand and on both sides of the paper—which is of itself in shocking bad form, from an educational standpoint:

Stockholm, December 7, 1904.

To His Majesty, the King of Hawaii—Very much interested of international studies, especially those concerning your exotic pretty islands, with this I take the liberty submissively to request the representation as Consul for your country here.

Being the president of a great society for international studies with more than seven hundred members all over the world, I have also the honor to correspond with one of your Majesty's happy subjects in the town of Kunal and I dare to found my request thereon that I write and speak the English language as well as the French, German, Swedish and Danish, and hope to be more acquainted with your people.

I am twenty-five years of age and in my private life notor (sic) of the largest and most well known life insurance office in Sweden.

Hoping that your Majesty will pay attention to this, my demand, and appoint me to this office mentioned above, I am your Majesty's obedient servant,
ROBERT AHLIN.

Now, George R. Carter is not King of Hawaii—although some people nearer home than Stockholm may think that he is. Not a bit. He is only Governor, under Teddy Roosevelt, and he has troubles enough of his own without appointing Consuls to hunt some more for him. Mr. Carter, in fact, finds it hard enough to keep in order the men he has appointed to office right here at home—some of them. And there are no square heads among them either. But Consuls! Not. The Governor, if you please, passes all that up to Teddy.

GOVERNOR CARTER TALKS OF HIS ANNUAL REPORT

"Bless your heart," said Governor Carter, "I've no kick coming at the way in which the Advertiser is running my annual report, as a kind of serial, even if the paper did scoop me on it. That is the best possible way to handle it. It insures it much wider reading than it would otherwise get. If it had all come out at once the papers would have had condensed stories of it, and the people at large might never have seen it at all. The present method keeps up the interest and insures the widest and most desirable publicity to the matters treated in the report."

An Enjoyable Outing.

The most attractive day's outing is that afforded by the excursion down the railroad line. The HALEIWA LIMITED, a first-class train, leaves Honolulu every Sunday morning at 8:23 o'clock making the run in two hours, the rate for round trip being only \$2.00. From 10:22 a. m. until 8:10 p. m. is spent at the beautiful HOTEL HALEIWA, with fresh and salt water bathing, tennis, golf drives and walks,

shooting or fishing and you are back in town at 10:10 o'clock in the evening.

Call From Honolulu.

SANTA ROSA, Dec. 17.—The Rev. Peter Colvin, pastor of the First Christian Church of this city, has been called to the pastorate of the Christian Church of Honolulu. He has the call under advisement. He is an eloquent speaker and is eminently popular with all classes.

A Discovery.

There is more than one has a hand (pen) in the Bystander if we are any judge of writing. It is not alone one man's work from time to time.—Honolulu Times.

PUDD'NHEAD WILSON COME TO TOWN WITH HIS THEORY

Pudd'nhead Wilson has arrived in Honolulu. His great theory is about being subjected to a test in a Federal court case.

Takejro Yokoyama and Kichitaro Takata, two Japanese arrested on Thursday for conspiracy to effect the sale of a married woman, had their examination before U. S. Commissioner A. F. Judd yesterday afternoon, A. M. Brown appearing as their attorney.

Such was the evidence of the defendants and the woman herself, a mature dame of Dai Nippon, together with that of other witnesses, that District Attorney R. W. Breckons was constrained to enter a nolle prosequi and ask for the discharge of both men.

"I make no objection," Mr. Brown facetiously remarked.
Mr. Breckons considers that the incipient prosecution of the case was not in vain, for he believes that he has laid the foundation therein for sundry prosecutions touching the crimes of conspiracy and perjury, if not other offenses.

Here is where Pudd'nhead Wilson comes in.
One of the witnesses denied that a bill of sale for the woman was signed by him. The signature was verified

by the thumb mark of the signer. This signet was also denied by the witness. After the hearing the witnesses were directed to the office of Marshal Hendry to receive their fees. The man who denied the thumb mark on the exhibit in court now attested his signature to the witness pay sheet with the imprint of his thumb.

There was a difference in the kind and quantity of ink used between the two thumb marks, but a strong magnifying glass may show an exact identity of the lines on which Pudd'nhead Wilson's theory is based.

Ichi Yokoyama, the woman in the case, has been married seventeen years and has lived in Hawaii the past twelve years. In September of 1903 she deserted Takejro, who brought her from Japan as his wife, and, in consideration of \$65 paid to him, was conveyed by bill of sale to Takata. Tiring of Takata in September last, or after one year's semblance of matrimonial hitch to him she went back to her first spouse.

Takata forthwith went about among his countrymen showing the receipted bill of sale and exclaiming: "Look at that, and here she has run away."

At least such was the case Mr. Breckons had under construction, but the wind was high and the swearing bad yesterday.

Muslin Underwear Clearing Sale

3,000 Dollars Worth

New, crisp, clean and fresh underwear just arrived direct from eastern factories. An excellent display.

This immense stock could easily have taken the town by storm at regular prices, because of their immaculate daintiness and excellence of fabric and finish.

The superior generalship of our buyer in New York city has, however, worked consternation in the camp of underwear factories.

ALL SHOULD HASTEN TO PROFIT BY OUR LOW PRICE VICTORY.

A DEAL THAT REQUIRED NERVE.

Some folks, it is said not only enumerate their poultry before it is incubated, but see double while doing it.

Such a one may be our New York buyer who is an optimist from Optimistville. In any event, in his lexicon there is no such word as "FAIL."

This functionary encountered an opportunity to corral an immense bargain—that is if he could comply with one condition, viz:

TAKE QUANTITIES.

HE CLOSED THE DEAL

AND THE GOODS ARE HERE.

Thousands of articles in the Muslin Underwear line will be surrendered to the ladies of the city of Honolulu and vicinity at almost your OWN PRICES.

ON TUESDAY, JAN. 3rd.

This is the Greatest Underwear Sale ever held in this city. Our doors will open 8:30 a. m.

Primo Lager IS PURE

Not all beer in the Hawaiian Islands is pure. The reason is that in shipping beer through various climates to Hawaii the beer must be preserved with substances which should not be in it and which are injurious to the health. It is better to be always on the safe side and drink Primo Lager.

LEONARD Cleanable REFRIGERATOR

KEEPS FOOD FRESH AND PURE.

If you want a real good refrigerator—one that has been tested and not found wanting, we do not hesitate to recommend the "Leonard Cleanable Refrigerator."

Refrigerators that are damp and allow food to become mouldy give lodgement to germs.

A microbe hasn't a chance to live in a "Leonard."

It is dry, safe and reliable because it is made on the most scientific principles of refrigeration. It has eight walls, porcelain lined, air tight doors and its perfect air circulation will not permit the different articles of food to taste of each other.

When you see it you will instantly recognize its superiority over other refrigerators.
